

Why Guardforce 衛安優勢

Strong Management

The management is led by seasoned professionals with strong disciplinary and security background, and have substantial experience and excellent proven track record in the industry to handle projects of various scales.

Professional Consultation

An experienced manager will conduct a site survey and a customer consultation meeting prior to the start of service to ensure that customer's requirements are well understood and onsite risks are well covered.

Stringent Screening

All our security guards have undergone stringent background checks and vetting procedures prior to employment, and successful candidates are selected based on screening results and their past job experiences and performances.

Scrupulous Quality Control

A series of operational control will be carried out to ensure assigned duties are executed properly and professionally. Onsite staff are provided standard operation procedure to follow, and supervisors will undertake unscheduled inspections and regular operational review meetings to maintain standard.

Invite Feedback

A regular customer visit will be conducted to get customers' feedback and evaluation on customer's satisfaction level and identify areas for improvement.

Ongoing Training

All staff will go through regular intensive on-the-job training on areas such as work-related topics, customer services and grooming to ensure they maintain high-standard service and are presentable to complement your corporate image.

強大管理團隊
